REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

The Board of Directors
Commercial Bank of Dubai PSC
Dubai
United Arab Emirates

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of **Commercial Bank of Dubai PSC** (the “Bank”) and its subsidiaries (together referred to as the “Group”) as at 30 September 2025 and the related condensed consolidated interim statements of profit or loss, comprehensive income, changes in equity and cash flows for the nine-month period then ended and a summary of material accounting policy information and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard 34 *Interim Financial Reporting* (“IAS 34”). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

National General Insurance Co. (PJSC)	17.8%	17.8%	UAE	Life and general insurance business as well as certain reinsurance business.

Commercial Bank of Dubai PSC

Notes to the Group condensed consolidated interim financial statements

For the nine months period ended 30 September 2025 (unaudited)

2. BASIS OF PREPARATION

2.1 Statement of compliance

These Group condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial reporting. These condensed consolidated interim financial statements do not include all the information required for full annual audited consolidated financial statements and should be read in conjunction with the audited consolidated financial statements of the Group as at and for the year ended 31 December 2024.

The accounting policies adopted in the preparation of these Group condensed consolidated interim financial statements are consistent with those followed in the preparation of these Group audited consolidated financial statements for the year ended 31 December 2024, except for the new and revised International Financial Reporting Standards mentioned in note 5.

A number of new accounting standards and amendments to accounting standards are effective for annual period beginning after 1 January 2025 and earlier application is permitted. The Group has not early adopted any of the forthcoming new or amended accounting standards in preparing these condensed consolidated interim financial statements. Management anticipates that these IFRS and amendments will be adopted in the consolidated financial statements in the initial period when they become mandatorily effective. The impact of these standards and amendments is currently being assessed by the management.

2.2 Functional and presentation currency

These Group condensed consolidated interim financial statements are presented in United Arab Emirates Dirhams ("AED"), which is the Group's functional and presentation currency, rounded to the nearest thousand unless otherwise stated.

2.3 Basis of consolidation

These Group condensed consolidated interim financial statements comprise the financial statements of the Bank, its wholly owned subsidiaries (together referred to as "the Group"), which it controls and the Group's interest in an associate, as at 30 September 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

3. MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Financial Assets

3.1.1 Classification

The Group classifies financial assets on initial recognition in the following categories:

- Amortised cost;
- Fair value through other comprehensive income (FVOCI); and
- Fair value through profit or loss (FVPL).

Business model assessment

The Group makes an assessment of the objective of a business model in which a financial asset is held at portfolio level, because this reflects the way the business is managed and information is provided to the management. The assessment is not determined by a single factor or activity. Instead, the entity considers all relevant information available at the date of the assessment. The information considered includes:

Commercial Bank of Dubai PSC

Notes to the Group condensed consolidated interim financial statements

For the nine months period ended 30 September 2025 (unaudited)

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.1 Financial Assets (continued)

3.1.1 Classification (continued)

- the stated policies and objectives for the business and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio and the financial asset held within the portfolio is evaluated and reported to the management;
- the risks that affect the performance of the portfolio and, in particular, the way in which those risks are managed;
- how the managers of the business are compensated; and
- the frequency, volume and timing of sales in prior period, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows is solely payments of principal and interest

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument.

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash from specified assets; and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

Commercial Bank of Dubai PSC

Notes to the Group condensed consolidated interim financial statements

For the nine months period ended 30 September 2025 (unaudited)

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.1 Financial Assets (continued)

3.1.2 Impairment of financial assets

The Group recognizes, where applicable, loss allowances for Expected Credit Losses (ECLs) on the following financial instruments that are not measured at FVPL:

- balances with central banks;
- due from banks;
- debt investment securities;
- loans and advances, Islamic financing and other financial assets;
- loan commitments; and
- financial guarantee contracts.

No impairment loss is recognized on equity investments.

IFRS 9 outlines a ‘three-stage’ model for impairment based on changes in credit quality since initial recognition as summarised below:

Stage 1: When financial instruments are first recognised, the Group recognises an allowance based on 12 months ECLs. 12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Stage 2: When a financial instrument has shown a significant increase in credit risk since origination, the Group records an allowance for the life time expected credit losses (LTECL). LTECL are the ECL that result from all possible default events over the expected life of the financial instrument.

Stage 3: Financial Instruments considered credit-impaired. The Group records an allowance for the LTECLs.

ECLs are an unbiased probability-weighted estimate of the present value of credit losses that is determined by evaluating a range of possible outcomes. For funded exposures, ECL is measured as follows:

- for financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive); and
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows.

However, for unfunded exposures, ECL is measured as follows:

- for undrawn loan commitments, as the present value of the difference between the contractual cash flows that are due to the Group if the holder of the commitment draws down the loan and the cash flows that the Group expects to receive if the loan is drawn down; and
- for financial guarantee contracts, the expected payments to reimburse the holder of the guaranteed debt instrument less any amounts that the Group expects to receive from the holder, the debtor or any other party.

The Group measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic and credit risk characteristics. The measurement of the loss allowance is based on the present value of the asset’s expected cash flows using the asset’s original Effective Interest Rate (EIR), regardless of whether it is measured on an individual basis or a collective basis.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.1 Financial Assets (continued)

3.1.2 Impairment of financial assets (continued)

The key inputs into the measurement of ECL are the term structures of the following variables:

- probability of default (PD);
- exposure at default (EAD); and
- loss given default (LGD).

These parameters are generally derived from internally developed statistical models, other historical data and are adjusted to reflect forward-looking information.

Details of these statistical parameters / inputs are as follows:

- PD – PD is the estimate of likelihood of default over a given time horizon, which is calculated based on statistical rating models currently used by the Group, and assessed using rating tools tailored to the various categories of counterparties and exposures.
- EAD – EAD represents the expected exposure in the event of a default. The Group derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract and arising from amortisation. The EADs of a financial asset is its gross carrying amount at the time of default. For lending commitments, the EADs are potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts. For financial guarantees, the EAD represents the amount of the guaranteed exposure when the financial guarantee becomes payable. For some financial assets, EAD is determined by modelling the range of possible exposure outcomes at various points in time using scenario and statistical techniques.
- LGD – LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from any collateral. The LGD models for secured assets consider forecasts of future collateral valuation taking into account sale discounts, time to realisation of collateral, cross-collateralisation and seniority of claim, cost of realisation of collateral and cure rates (i.e. exit from non-performing status). LGD models for unsecured assets consider time of recovery, history of recovery rates and seniority of claims. The calculation is on a discounted cash flow basis, where the cash flows are discounted by the original EIR of the loan.

(i) *Assessment of significant increase in credit risk*

The Group's accounting policy is not to use the practical expedient that financial assets with 'low' credit risk at the reporting date are deemed not to have had a significant increase in credit risk. As a result, the Group monitors all financial assets, issued loan commitments and financial guarantee contracts that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL. The assessment is performed on monthly basis for each individual exposure.

Quantitative thresholds are established for the significant increase in the credit risk by comparing the risk of default estimated at origination with the risk of default at reporting date based on the movement in credit rating by 3 notches for credit risk grading 1 – 10, by 2 notches for credit risk grading 11 – 17 and 1 notch for credit risk grading 18 – 19. In addition to quantitative criteria the Group has a proactive Early

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.1 Financial Assets (continued)

3.1.2 Impairment of financial assets (continued)

(i) *Assessment of significant increase in credit risk (continued)*

Warning Indicator (EWI) framework, based on which the Credit Risk team performs a portfolio quality review on a monthly basis. The objective of the same is to identify potentially higher risk customers within the performing customers.

For retail lending the Group considers credit scores and events such as unemployment, bankruptcy or death. As a back-stop when an asset becomes 30 days past due, the Group considers that a significant increase in credit risk has occurred and the asset is in Stage 2 of the impairment model, i.e. the loss allowance is measured as the lifetime ECL. The criteria may be rebutted on a case by case basis, depending upon individual circumstances of customers.

(ii) *Improvement of credit risk profile*

The Group has defined below criteria in accordance with regulatory guidelines to assess any improvement in the credit risk profile which will result into upgrading of customers moving from Stage 3 to Stage 2 and from Stage 2 to Stage 1.

- Significant decrease in credit risk will be upgraded in stage (one stage at a time) from Stage 3 to Stage 2 and from Stage 2 to Stage 1 after meeting the curing period of at least 12 months.
- Restructured cases will be upgraded if repayments of 3 installments (for quarterly installments) have been made or 12 months (for installments longer than quarterly) curing period is met.

Default definition

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full without recourse by the Group to actions such as realising security (if any is held); or
- the borrower is past due more than 90 days on any material credit obligation to the Group.

Overdrafts are considered as being past due once the customer has breached an advised limit or been advised of a limit smaller than the current amount outstanding.

In assessing whether a borrower is in default, the Group considers indicators that are:

- qualitative - e.g. breaches of covenant;
- quantitative - e.g. overdue status and non-payment on another obligation of the same issuer to the Group; and
- based on data developed internally and obtained from external sources.

The Group has performed a historical default rate analysis to identify homogeneous segments and further estimated ECL parameters (i.e. PD, LGD and EAD) at similar granularities. To perform a historical default rate analysis, the Group has adopted two separate definitions of default for the non-retail and the retail portfolio.

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.1 Financial Assets (continued)

3.1.2 Impairment of financial assets (continued)

(ii) *Improvement of credit risk profile (continued)*

○ *Non-retail portfolio*

The non-retail portfolio comprises of loans which are managed individually by the Relationship Managers (RMs) with oversight from the Credit Risk team of the Group. These loans are appraised at least annually based on the financial information, other qualitative information and account conduct of the customer.

A non-retail customer is identified as at default if the customer is materially delinquent for more than 90 days of any of its credit obligation. Materiality refers to 5% of the principal outstanding being past due for 90+ days is considered delinquent.

○ *Retail portfolio*

The retail portfolio comprises of loans that are managed at a product level, and based on approved product programs. A retail account is identified as default if the customer is delinquent for more than 90 days.

The default rate analysis for the retail portfolio is performed at the account level.

(iii) *Incorporation of forward-looking information*

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. The Group relies on a broad range of forward looking information as economic inputs such as:

- House prices like real estate – Dubai and Abu Dhabi Index;
- Economic Composite Index (ECI);
- Non-Oil Economic Composite Index (NIECI);
- Oil Price per Barrel (OPB);
- Consumer Price Index (CPI) and
- Hotel Occupancy Dubai.

(iv) *Modification of financial assets*

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and / or timing of the contractual cash flows either immediately or at a future date.

When a financial asset is modified, the Group assesses whether this modification results in derecognition. In accordance with the Group's policy, a modification results in derecognition when it gives rise to substantially different terms. To determine if the modified terms are substantially different from the original contractual terms the Group considers the following:

- Qualitative factors, such as contractual cash flows after modification are no longer SPPI, change in currency or change of counterparty, the extent of change in interest rates, maturity, covenants. If these do not clearly indicate a substantial modification, then;

Commercial Bank of Dubai PSC

Notes to the Group condensed consolidated interim financial statements

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.1 Financial Assets (continued)

3.1.2 Impairment of financial assets (continued)

(iv) *Modification of financial assets (continued)*

- A quantitative assessment is performed to compare the present value of the remaining contractual cash flows under the original terms with the contractual cash flows under the revised terms, both amounts discounted at the original effective interest. If the difference in present value is material, the Group deems the arrangement is substantially different leading to derecognition.

When the contractual terms of a financial asset are modified and the modification does not result in derecognition, the Group determines if the financial asset's credit risk has increased significantly since initial recognition by comparing:

- the remaining lifetime PD estimated based on data at initial recognition and the original contractual terms; with
- the remaining lifetime PD at the reporting date based on the modified terms.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. The revised terms usually include extending the maturity, changing the timing of interest payments and amending the terms of loan covenants. Both retail and corporate loans are subject to the forbearance policy. The Group Credit Committee regularly reviews reports on forbearance activities.

If the Group plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Generally, forbearance is a qualitative indicator of a significant increase in credit risk and an expectation of forbearance may constitute evidence that an exposure is credit-impaired. For financial assets modified as part of the Group's forbearance policy, where modification did not result in derecognition, the estimate of PD reflects the Group's ability to collect the modified cash flows taking into account the Group's previous experience of similar forbearance action, as well as various behavioural indicators, including the borrower's payment performance against the modified contractual terms.

If the credit risk remains significantly higher than what was expected at initial recognition, the loss allowance will continue to be measured at an amount equal to lifetime ECL. The loss allowance on forborne loans will generally only be measured based on 12-month ECL when there is evidence of the borrower's improved repayment behaviour following modification leading to a reversal of the previous significant increase in credit risk.

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the Group first recalculates the gross carrying amount of the financial asset using the original effective interest rate of the asset and recognises the resulting adjustment as a modification gain or loss in the consolidated statement of profit or loss. Then the Group measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset. For floating-rate financial

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.1 Financial Assets (continued)

3.1.2 Impairment of financial assets (continued)

(iv) *Modification of financial assets (continued)*

assets, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs or fees incurred and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income calculated using the effective interest rate method.

3.2 Taxation

The income tax expense represents the sum of current and deferred income tax expense.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

A provision is recognised for those matters for which the tax determination is uncertain, but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of tax professionals within the group supported by previous experience in respect of such activities and in certain cases based on specialist independent tax advice.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination or for transactions that give rise to equal taxable and deductible temporary differences) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, a deferred tax liability is not recognised if the temporary difference arises from the initial recognition of goodwill.

Commercial Bank of Dubai PSC

Notes to the Group condensed consolidated interim financial statements

For the nine months period ended 30 September 2025 (unaudited)

3. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.2 Taxation (continued)

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

4. USE OF ESTIMATES AND JUDGMENTS

The preparation of these Group condensed consolidated interim financial information requires management to make estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgement and uncertainty and actual results may therefore differ, resulting in future changes in these estimates. In preparing these condensed consolidated interim financial statements, judgement is exercised by management in applying the Group's accounting policies. The key sources of estimation uncertainty are consistent with the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2024.

(i) Credit risk management

In addition to the management of credit risk described in Note 35 b. (i) to the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2024, the Group has identified several more vulnerable sectors to an environment with higher interest rates, and reviews are being conducted on a more frequent basis. Sectors that currently are considered more vulnerable are:

- Contracting
- Construction and Manufacturing
- Commercial Real Estate
- Trade

The Group continues to apply robust underwriting standards to companies in the above sectors, especially for any new customers. Extra measures, such as requiring additional approvals for disbursements of facilities have been implemented to ensure a high level of scrutiny over the credit management process.

The Group will continue to demonstrate sound prudence and vigor in underwriting across the retail sector whilst supporting customers and businesses across the UAE.

4. USE OF ESTIMATES AND JUDGMENTS (CONTINUED)

(i) Credit risk management (continued)

The Group exercises significant judgement in assessing and estimating areas such as Expected Credit Losses. The Group has updated its ECL model based on the latest macro-economic data provided by Moody's.

Governance around IFRS 9 ECL models and calculations

Given the significant impact that the macro-economic scenarios and weightages will have on the Group's ECL, the Group has further strengthened its processes, controls and governance frameworks around macro-economic forecasting and the computation of ECL. The Group's IFRS 9 Committee, which reports to the Executive Management, has primary responsibility for overseeing the Group's ECL models. To ensure the ongoing integrity of ECL calculations during times of extreme uncertainty and volatility, the Group's IFRS 9 Committee exercises oversight by conducting regular reviews of the portfolio. The Committee has been closely monitoring the macro-economic inputs applied to the IFRS 9 model at the Group and has recommended changes required during the current year in the light of relevant information received. The Committee continually assess the performance of the Group's portfolio, ensuring that credit risk behaviors align with the significant increase in credit risk policy and that the staging criteria remain relevant.

(ii) Fair value measurement of financial instruments

The Group's existing policy on fair value measurement of financial instruments is disclosed in note 3.1 (b) to the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2024.

(iii) Investment properties

The Group's existing policy on the recognition and measurement of investment properties is disclosed in note 3.6 to the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2024.

5. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS "IFRS"

Relevant new and revised IFRS applied with no material effect on the Group condensed consolidated interim financial statements.

The following new and revised IFRS have been adopted in these condensed consolidated interim financial statements. The application of these new and revised IFRS has not had any material impact on the amounts reported for the current and prior periods.

	Effective for annual period beginning on or after
Lack of Exchangeability (Amendment to IAS 21)	1 January 2025

6. RISK GOVERNANCE AND FINANCIAL RISK MANAGEMENT

The Group's Risk Governance and Financial Risk Management objectives, policies and procedures are consistent with those disclosed in these Group audited consolidated financial statements as at and for the year ended 31 December 2024.

7. CASH AND BALANCES WITH CENTRAL BANK

	30 September 2025 AED'000 (Unaudited)	31 December 2024 AED'000 (Audited)
Cash on hand	1,009,264	1,093,528
Balances with Central Bank U.A.E.		
- Statutory reserves and other deposits	14,858,596	13,644,110
- Negotiable certificates of deposit	2,700,000	2,200,000
	<u>18,567,860</u>	<u>16,937,638</u>

Cash and balances with Central Bank is classified under stage 1 as per IFRS 9. However, as the counterparty holds a good credit rating, the probability of default is considered to be low and hence the expected credit loss is considered to be immaterial.

10.4 Impairment reserve under the Central Bank of UAE (CBUAE) guidance

The CBUAE has issued its IFRS 9 guidance addressing various implementation challenges and practical implications for Banks adopting IFRS 9 in the UAE (“the guidance”).

Pursuant to clause 9.21 of the guidance, the reconciliation between general provision under Circular 3/2024 of CBUAE and IFRS 9 is as follows:

	30 September 2025 AED'000 (Unaudited)	31 December 2024 AED'000 (Audited)
Allowances for impairment losses: General		
General provisions under Circular 3/2024 of CBUAE	1,676,906	1,480,195
Less: Stage 1 and Stage 2 provisions under IFRS 9	1,687,559	1,497,035
General provision transferred to the impairment reserve*	-	-

*In the case where provisions under IFRS 9 exceed provisions under CBUAE, no amount shall be transferred to the impairment reserve.

Provisions had been modelled and aligned with the Credit Risk Management in compliance with the Credit Risk Management Regulation and accompanying standards Circular No. 3/2024 issued by Central Bank of UAE and dated 25 July 2024.

Total		5,705,456	(624,410)	617	5,081,663

13.1 Syndicated loan

In August 2019, the Group entered into a club deal of AED 624.4 million (USD 170 million) for a term of 5 years with an option to roll over on a semi-annual basis maturing in August 2024. This deal concluded in February 2024.

13.2 Repurchase agreements

The Group entered into multiple repo transactions to obtain financing against the sale of certain debt securities. The repo transactions details are as follows:

Purchase date	Maturity date	Fixed/floating	Amount in USD (millions)	Amount in AED (millions)
May-2025	May-2027	floating	295.8	1,086.3
April-2023	April 2028	floating	249.5	916.5
May-2025	May-2028	floating	495.3	1,819.3
June -2025	June-2028	floating	330.0	1,212.1

As at 30 September 2025 the fair value of the debt securities, which have been pledged under these repurchase agreements with banks, amounts to AED 5,784.5 million (USD 1,574.9 million) (31 December 2024: AED 3,452.8 million (USD 940.1 million)).

15. EQUITY

15.1 Share capital

The fully paid up and authorised ordinary share capital as at 30 September 2025 comprised 2,985,191,949 ordinary shares of AED 1 each (31 December 2024: 2,985,191,949 shares of AED 1 each). In the current and prior year there was no movement.

At the Annual General Meeting of the shareholders held on 5 March 2025, the shareholders approved a cash dividend of AED 0.5074 per share for the year ended 31 December 2024 (2023: AED 0.4438 per share).

Commercial Bank of Dubai PSC

Notes to the Group condensed consolidated interim financial statements

For the nine months period ended 30 September 2025 (unaudited)

15. EQUITY (CONTINUED)

15.2 Tier 1 capital

The Group had issued AED 2,203.8 million (USD 600 million) of Tier 1 Capital Securities at a price of 6% per annum on 21 October 2020. The notes are non-callable for 6 years and are listed on Euronext Dublin and Nasdaq Dubai.

The notes are perpetual, subordinated and unsecured. The Group can elect not to pay a coupon at its own discretion. Note holders will not have a right to claim the coupon and such event will not be considered an event of default.

The accounting treatment for the securities is governed by IAS 32 Financial Instruments Presentation. As per IAS 32, the instrument qualifies as an equity instrument and the interest paid on the securities is accounted for as a deduction from retained earnings. The accounting treatment for issuing securities transaction costs are accounted for as a deduction from equity. These are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

	18,507,947	15,837,911

21. CONTINGENT LIABILITIES AND UNDRAWN COMMITMENTS

Contingent liabilities represent credit-related commitments to extend letters of credit and guarantees which are designed to meet the requirements of the Group's customers toward third parties. Undrawn commitments represent the Group's commitments towards approved undrawn credit facilities. The amount of contingent liabilities reflected below represent the maximum accounting loss that would be recognised at the reporting date if counterparties failed completely to perform as contracted.

	30 September 2025 AED'000 (Unaudited)	31 December 2024 AED'000 (Audited)
Contingent liabilities:		
Letters of credit	3,167,601	2,748,204
Letters of guarantee	27,112,158	19,925,577
Total contingent liabilities	30,279,759	22,673,781
Undrawn commitments to extend credit	30,873,179	26,808,976
Capital expenditure commitments	217,551	161,458
Commitments for future private equity investments	45,101	45,101
Total contingent liabilities and undrawn commitments	61,415,590	49,689,316

In the normal course of business, certain litigations were filed by or against the Group. However, based on management assessment, none of the litigations have a material impact on the Group's financial results.

The Group seeks to comply with all applicable laws by which it is governed and is not aware of any material fines or penalties that warrant disclosure in the financial statements.

Commercial Bank of Dubai PSC

Notes to the Group condensed consolidated interim financial statements

For the nine months period ended 30 September 2025 (unaudited)

22. SEGMENTAL REPORTING

The Group uses business segments for presenting its segment information, which is based on the Group's management and internal reporting structure that are regularly reviewed by the Executive Committee to allocate resources to the segment and to assess its performance. From time-to-time restatements are made based on business structures and combination changes. During the period, there have been no material changes to the organization structure and the portfolio allocation to the business segments. The prior comparative period figures have been reclassified to conform to the current period's presentation.

The business segments pay to and receive interest from the Treasury to reflect the allocation of funding costs. Interest is charged or credited to business segments and branches to match funding at transfer pricing rates which approximate the cost of funds.

Business segments

Institutional banking	Includes loan and other credit facilities, deposits, trade finance products and e-commerce solutions to institutional clients (including Government related entities).
Corporate banking	Includes loans, working capital financing, trade finance and deposits products to corporate (mid-sized and emerging) clients.
Personal banking	Includes current accounts, easy access saving accounts, fixed rate deposit accounts, personal loans, overdraft facilities, vehicle finance, mortgage products, loans and other credit facilities to retail clients. It also includes the enterprise-wide liabilities unit serving non-borrowing wholesale and small business clients.
Trading & other	Undertakes balance sheet management deals and manages the Group's proprietary investment portfolio. It also has derivatives for trading and risk management purposes.

Geographical

The Group operates in one geographic area, the United Arab Emirates.

Total financial liabilities	521,395	44,992	122,145,286	122,711,673

23.2 Fair value measurement – fair value hierarchy:

The table below shows categorization of fair value of financial assets and liabilities into different levels of the fair value hierarchy.

Different level of fair value hierarchy have been defined as follows:

Level 1: Quoted market price (unadjusted) in an active market for an identical instrument. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry, group, pricing service or regulatory agency, and those prices represent actual and regularly recurring market transactions on an arm's length basis.

Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs based on unobservable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Except for financial assets and liabilities specified in the table below, the fair value of financial assets and liabilities is not materially different from their carrying value.

23. FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

23.2 Fair value measurement – fair value hierarchy: (continued)

	Level 1 AED'000	Level 2 AED'000	Level 3 AED'000	Total fair value AED'000
30 September 2025 (Unaudited)				
Investments				
Equity instruments and funds	56,040	116,855	182,142	355,037
Fixed and floating rate securities	9,561,133	581,130	-	10,142,263
Positive market value of forward foreign exchange contracts and other derivatives				
Fair value through profit or loss	-	331,965	-	331,965
Held for fair value hedge	-	-	-	-
Negative market value of forward foreign exchange contracts and other derivatives				
Fair value through profit or loss	-	(326,096)	-	(326,096)
Held for fair value hedge	-	-	-	-
	9,617,173	703,854	182,142	10,503,169
31 December 2024 (Audited)				
Investments				
Equity instruments and funds	59,655	113,167	181,278	354,100
Fixed and floating rate securities	5,886,176	810,646	-	6,696,822
Positive market value of forward foreign exchange contracts and other derivatives				
Fair value through profit or loss	-	584,730	-	584,730
Held for fair value hedge	-	30	-	30
Negative market value of forward foreign exchange contracts and other derivatives				
Fair value through profit or loss	-	(521,365)	-	(521,365)
Held for fair value hedge	-	(30)	-	(30)
	5,945,831	987,178	181,278	7,114,287

The carrying values of the financial assets and liabilities (that are not stated at fair value) are not significantly different from their fair values.

During the period, there were no transfers between Level 1, Level 2 and Level 3 of the fair value hierarchy above. Further, there has been no change in the valuation techniques in relation to valuation of financial instruments during the current or prior period.

24. RELATED PARTY TRANSACTIONS AND BALANCES

As at 30 September 2025 and 31 December 2024, the Investment Corporation of Dubai (“ICD”) owns 20% share capital of the Group. ICD is a wholly owned entity by the Government of Dubai (the “Government”). The Group applies the exemption in IAS 24 Related Party Disclosures that allows to present reduced related party disclosures regarding transactions with government related parties.

The Group in the ordinary course of business enters into transactions with major shareholders, directors, key management personnel and their related entities. The terms of these transactions are approved by the Group’s Board of Directors. Transactions with such related parties are made on substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with external customers and parties.

Other benefits	25,307	68,647

25. CAPITAL ADEQUACY

The Central Bank of U.A.E. ('CBUAE') supervises the Group on a consolidated basis, and therefore receives information on the capital adequacy of, and sets capital requirements for, the Group as a whole. Effective from 2017, the capital is computed at a Group level using the Basel III framework of the Basel Committee on Banking Supervision ('Basel Committee'), after applying the amendments advised by the CBUAE, within national discretion. The Basel III framework, like Basel II, is structured around nine 'pillars': minimum capital requirements, supervisory review process and market discipline.

The Bank's capital base is divided into nine main categories, namely CET1, AT1 and Tier 2 (T2), depending on their characteristics.

- CET1 capital is the highest quality form of capital, comprising share capital, legal, statutory and other reserves, fair value reserve, retained earnings, after deductions for intangibles and other regulatory adjustments relating to items that are included in equity but are treated differently for capital adequacy purposes under 'CBUAE' guidelines.
- AT1 capital comprises eligible non-common equity capital instruments.
- Tier 2 capital comprises of collective provision which shall not exceed 1.25% of total credit risk weighted assets.

The table below summarizes the composition of regulatory capital and the ratios of the Group as per Basel III guidelines and has complied with all of the externally imposed capital requirements to which it is subject.

As per the Central Bank U.A.E. regulation for Basel III, the capital requirement as at 30 September 2025 is 13% inclusive of capital conservation buffer of 2.5%. The Group has also applied the standards issued vide its circular dated 12 November 2020 and 30 December 2022 by the CBUAE which includes additional Guidance on the topics of Credit Risk, Market Risk, Operational Risk, Equity Investment in Funds (EIF), Counter Party Credit Risk (CCR) and Credit Value Adjustment (CVA). The Standards support the implementation of the "Regulations re Capital Adequacy" (Circular 52/2022).

Notes to the Group condensed consolidated interim financial statements

For the nine months period ended 30 September 2025 (unaudited)

26. GROUP CONSOLIDATED INCOME TAX

The major components of income tax expense for the nine months period ended 30 September 2025 are:

	30 September 2025 AED'000 (Unaudited)	30 September 2024 AED'000 (Unaudited)
Corporation income tax		
Current year	253,028	218,885
Tax recognised in Statement of other Comprehensive Income		
Tax in other comprehensive income	(131)	(412)
Deferred tax in other comprehensive income	21,778	-

The standard rate of corporation tax applied to reported profits is 9% (2024: 9%)

The Group's consolidated effective tax rate for the nine-month period ended 30 Sep 2025 is 9%. The reconciliation of profit before tax is presented below. The corporation expense is recognized at an amount determined by multiplying the profit (loss) before tax for the interim reporting period by management's best estimate of the weighted-average annual income tax rate expected for the full financial year. The effective tax rate in the interim financial statements may differ from management's estimate of the effective tax rate for the annual financial statements.

The charge for the period can be reconciled to the profit before tax as follows:

	30 September 2025 AED'000 (Unaudited)	30 September 2024 AED'000 (Unaudited)
Net Profit for the period before income tax expense	2,832,022	2,450,125
Tax at the company domestic rate of 9% (FY 2024:9%)	254,882	220,511
Tax effect of income not taxable in determining taxable profit	(2,078)	(1,825)
Tax effect of expenses that are not deductible in determining taxable profit	167	43
Other adjustments	57	156
Tax expenses for the period	253,028	218,885
Effective tax rate	8.93%	8.93%

Statement of Other Comprehensive Income		
Tax		
Items that will not be reclassified subsequently to profit or loss:		
Net change in fair value of equity investments (or instruments) at FVOCI	(131)	(412)
Deferred tax		
Items that may be subsequently reclassified to profit or loss:		
Net change in fair value of debt investments (or instruments) at fair value through other comprehensive income	21,778	-
Total income tax recognized directly in equity	<u>21,647</u>	<u>(412)</u>

27. PILLAR 2

The UAE has issued Cabinet Decision No (142) of 2024 that implements a Domestic Minimum Top-up Tax ("DMTT"). The DMTT will apply to Multinational Enterprises ("MNEs") that are within scope of Pillar Two based on the Organisation for Economic Cooperation and Development (OECD) Global Anti-Base Erosion ("GloBE") Model Rules. These rules will be imposed in cases where the MNE's effective tax rate ("ETR") in the UAE is below 15%. The CBD Group is UAE domiciled and is not expected to be captured within the Pillar Two rules.

28. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the presentation adopted in these Group condensed consolidated interim financial statements, the effect of which are considered immaterial.
