

Dubai Financial Market (DFM) Registers RTV International Technologies as Trading System Vendor

Dubai Financial Market (DFM) announced that it has registered RTV International Technologies L.L.C as a Trading System Vendor, bringing the total number of registered vendors to six companies.

DFM's registration process is designed to provide brokerage firms with access to cutting-edge trading systems, ensuring they can deliver efficient, transparent, and competitive services to investors.

Supporting this goal, RTV International delivers a suite of digital trading and investment platforms. The company's technology covers the entire brokerage lifecycle, combining advanced front-end applications with strong back-end infrastructure to help brokers streamline operations, enhance client engagement, and drive business growth.
